Executive Officer, Mark Stanley mentioned that there had been some comments from the board in terms of the scheduling of meetings throughout the year. Mr. Stanley also stated that there has been some discussion whether the meetings should continue as quarterly or should be ad hoc. He mentioned that if we continue with the quarterly schedule the next meeting would be May 11th followed by August 10th and so on. Board member Deaton suggested quarterly meetings so that the public can be involved and make their comments and she would rather have a set schedule so that she could put it on her calendar and then make any changes if needed. Chair Schuchat stated that he is fine with a regular schedule of the meetings but that the second Wednesday is a conflict with other meetings that he has. Vice Chair Price also agreed to having regular meetings so that the public could be involved but had an issue with the day of the week and also offered a place in Long Beach to hold the meetings if needed. Final comment by Mr. Stanley was that the board members will be surveyed to decide what day of the week and what time the meetings will be held.
