COASTAL WETLANDS RESTORATION AND STEWARDSHIP PROGRAMMING

The Los Cerritos Wetlands Authority (LCWA) is seeking one or more qualified individuals, firms, or entities to provide consultant services for coastal wetlands habitat restoration and community stewardship programming. The services above are to be provided within the Los Cerritos Wetlands Complex located in the Cities of Long Beach and Seal Beach (Exhibit A: Map). Desired qualifications include expertise in coastal wetlands restoration (tidal and upland) and experience in leading stewardship programming. The consultant will design a habitat restoration program to supplement current restoration efforts and will utilize community members and volunteer groups to assist with implementation of the restoration program whenever feasible. Alternatively, the consultant may propose and implement a community stewardship program to expand current opportunities from the Los Cerritos Wetlands Stewardship Program.

I. PROJECT OVERVIEW AND DESCRIPTION

The LCWA is a joint powers authority of the San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy (RMC), State Coastal Conservancy (SCC), City of Long Beach (LBC) and City of Seal Beach (SBC) whose mission is to provide for a comprehensive program of acquisition, protection, conservation, restoration, maintenance and operation, and environmental enhancement of the Los Cerritos Wetlands Complex consistent with the goals of flood protection, habitat protection and restoration, and improved water supply, water quality, groundwater recharge and water conservation. Currently, the LCWA owns 172 acres in the LCW Complex and leases and manages an additional five (5) acres from the State Lands Commission, adjacent to the South LCWA Site (Exhibit A: Map).

The LCWA adopted the Los Cerritos Wetlands Stewardship Program (Stewardship Program) in 2009 to promote community involvement focused on environmental education, maintenance, restoration, and monitoring of the wetlands. Restoration of property acquired by the LCWA was initiated from the Stewardship Program through small scale restoration projects, and allows for the public to visit the Los Cerritos Wetlands that are not otherwise open for public visitation due to ongoing oil operations (Exhibit B: Stewardship Flyer 2022).

Since 2009, the Stewardship Program has hosted hundreds of public events in partnership with various non-profits and educational organizations, which has resulted in the cleanup and enhancement of twelve (12) acres of land in and around a three (3)-acre tidal wetland called Zedler Marsh. Coastal salt marsh habitat, mule fat scrub, and upland habitat are present at the Zedler Marsh site. Currently, Zedler Marsh is the only portion of Los Cerritos Wetlands undergoing habitat restoration activities. Zedler Marsh is located on the "isthmus" of Los Cerritos Wetlands between 2nd Street/Westminster Avenue and Pacific Coast Hwy in Long Beach. The Zedler Marsh 1.5-mile trail system allows the public to safely access Los Cerritos Wetlands for the first time and also creates a usable outdoor education classroom for elementary to university-aged students to learn about their local urban wetlands.

In May 2022, the LCWA entered into a Memorandum of Agreement (MOA) with AES Redondo Beach, LLC (AES) to accept grant funds from their Voluntary Environmental Benefits Grants Program. The LCWA was awarded \$1,000,000 total over two years to support planning, engineering, restoration, and rehabilitation of the Los Cerritos Wetlands. The LCWA is seeking a Contractor or Contractors to implement programs to fulfill the intent of this funding through the following areas.

Proposers may recommend a restoration program to the LCWA for expanding the success of the restoration at Zedler Marsh and implement the program with the assistance of community-based stewardship whenever feasible, either through existing Stewardship Program offerings, new offerings, or organized group volunteer events.

Proposers may recommend programs for implementation from the Stewardship Program Vision Plan 2018 found here: <https://intoloscerritoswetlands.org/wp-content/uploads/2015/12/LCWA-Stewardship-Program-Vision-Plan.pdf>. Phases that the LCWA can initiate, based on current land ownership, are continued Phase 1 – Zedler Marsh Restoration, portions of Phase 3 – LCW Stewardship Program Center (clean-up and maintenance) and Phase 4 Hellman Bluffs of the Vision Plan (small acreage and would require coordination with LCWA's larger [Southern Los Cerritos Wetlands Restoration Project](#)). Note that Coastal Development Permits may be needed with phase 3 and phase 4 projects.

The LCWA is also seeking new opportunities to increase access to the Los Cerritos Wetlands to a wider audience and varying ages. Proposers may recommend education-only programs/activities to promote knowledge about the Los Cerritos Wetlands and/or Southern California wetlands and the importance of protecting and restoring remaining coastal wetlands.

Some potential restoration efforts may include:

- Targeted restoration in areas that have been difficult to restore, for example due to past land use and harsh soils
- Planting native coastal wetlands species not current existing at Zedler Marsh, including special status plants
- Expanding mule fat scrub habitat for Least Bell's Vireo and other species
- Propagation of plants from locally sourced seeds for restoration at the on-site nursery
- Regular trash clean up, maintenance of plants, and/or weeding
- Educational programming with schools, colleges, or universities

Selected Contractor(s) may be requested to continue with the developed programs in 2024 and 2025 under separate agreements.

The executed Agreement(s) may be formally amended to accommodate schedule conflicts or any unexpected costs associated with the services, by mutual consent of the LCWA and the Contractor. A variation of the terms (i.e., change in project representative, change in budget) requires mutual consent from the LCWA and Contractor. No verbal understanding, agreement, or amendment not incorporated into the Agreement is binding on either party.
