## **I. INTRODUCTION AND OVERVIEW:**

The Los Cerritos Wetlands Authority (LCWA) is requesting proposals from qualified firms (Consultant) to provide professional consultant services to work closely with the LCWA Project Team and leadership to finalize all required permits and produce the final engineering restoration design plans for construction of the 103.5-acre Southern Los Cerritos Wetlands Restoration Project (Project, Exhibit A). The designs will build on the existing 65% construction design plans and the [Project's Final Initial Study/Mitigated Negative Declaration](#) (IS/MND), which describes restoration to be implemented in two phases. The Consultant will provide bid support and construction support for the implementation of Phase 1 of the Project which measures approximately 55 acres in size.

The LCWA is a joint powers authority of San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy (RMC), State Coastal Conservancy (SCC), City of Long Beach (LBC) and City of Seal Beach (SBC) whose mission is to provide for a comprehensive program of acquisition, protection, conservation, restoration, maintenance and operation, and environmental enhancement of the Los Cerritos Wetlands Complex consistent with the goals of flood protection, habitat protection and restoration, and improved water supply, water quality, groundwater recharge and water conservation.

The LCWA anticipates that the Consultant team will include specialists in tidal salt marsh habitat restoration design and engineering, landscape architecture, geotechnical analyses, archeological and tribal cultural resources, hydrology and geomorphology, and other appropriate environmental planning, engineering, and permitting disciplines. Specific details on the requirements for key team members are provided below in Section III. The LCWA intends to contract the work with a single primary consultant, which may perform the work in-house or through one or more subcontractors. The primary consultant and their team members will be expected to coordinate with the LCWA Project Team, which will include LCWA staff and a variety of other technical experts. Proposals must be submitted by **Friday, December 1, 2023**, according to the guidelines set forth in Section VII: Submittals of Proposal.

## **II. PROJECT DESCRIPTION:**

The Los Cerritos Wetlands Complex on the border of Los Angeles and Orange Counties affords the opportunity to restore salt marsh, scrub, and other coastal habitat types within an approximately 503-acre area. The Southern California Wetland Recovery Project (WRP), a partnership of 17 state and federal agencies, has identified the acquisition and restoration of the Los Cerritos Wetlands as a high regional priority. The restored habitat will provide multiple benefits, including provision of critical habitat for listed species and other fish and wildlife, carbon sequestration, improved flood control, sea level rise resiliency, preservation of tribal cultural resources, and improved public access to open space.

The Los Cerritos Wetlands Complex adjoins the lower reach of the San Gabriel River where, prior to channelization, the mouth of the San Gabriel River migrated back and forth across the coastal plain. Historically, the complex covered approximately 2,400 acres and stretched approximately two miles inland, varying from freshwater and brackish wetlands in its inland areas to salt marsh closer to the ocean. Channelization of the San Gabriel River began in the 1930s and cut off tidal action to much of the wetland area. The size of the historic wetlands has been reduced by farming, placement of fill and excavation of channels and basins for oil fields and landfill burn dumps, and

urban development. There is ongoing oil production throughout the area and much of the remnant salt marsh is within a grid of dikes, berms, roadways, and levees. Other channels which service upstream power plants also bifurcate sections of the complex. Today, remnants of the historic wetlands occur in degraded patches, divided into the following four areas: North, Central, Isthmus, and South.

Furthermore, the Los Cerritos Wetlands and salt marsh hold significant tribal cultural history to the Gabrielino/Tongva/Kizh and Acjachemen/Juaneño tribes. Tribal representatives described the Los Cerritos Wetlands and its surroundings as sacred lands that encompass a larger area of connected tribal sites. The Los Cerritos Wetlands are located in between the village sites of *Puvungna* and *Motuucheyngna* and are thus considered by tribes to be part of the larger traditional cultural landscape of *Puvungna* and the surrounding villages.

The LCWA analyzed what opportunities exist for Los Cerritos Wetlands restoration, public access, and interpretation that will meet the needs of the agency, community, and stakeholders. This culminated in the Los Cerritos Wetlands Conceptual Restoration Plan (CRP) that was adopted by the LCWA Board of Directors in August 2015; a copy of that plan can be downloaded at <http://intoloscerritoswetlands.org/conceptual-restoration-plan/>.

Following the CRP process, the LCWA prepared a Program Environmental Impact Report (PEIR). This PEIR used the CRP designs to create a program description for a 503-acre program area. The potential impacts of this proposed program were analyzed, and mitigation measures were determined for potentially impacted resources. This program also included phasing for potential projects to eventually tier-off from the program. The Final PEIR can be found at <http://intoloscerritoswetlands.org/the-lcws-eir/>.

The initial near-term project identified by the PEIR is located in the South Area on 103.5 acres composed by the 100-acre South LCWA site (aka Hellman Ranch Lowlands) and 3.5 acres of the State Lands Commission site (aka State Lands Parcel). The South LCWA site is owned and managed by the LCWA, while the LCWA has an active lease to manage the State Lands Commission site (Exhibit A). This Project Area, herein called the Southern Los Cerritos Wetlands Restoration Project, was historically composed mostly of salt marsh but has been altered and degraded heavily by anthropogenic activities that mostly occurred over the past century. The site currently contains former sumps, landfills, foundations, and contaminated areas from prior oil operations and land uses. The site is also bifurcated by a roadway easement and utilities. Finally, the tidal connection to the site from the San Gabriel River is heavily muted.

This RFP is focused on engineering design services for the entire Project Area as well as construction support during the implementation of Phase 1 of the Project. The scope of services is to develop 90%, 100%, and Final engineering construction design drawings and specifications that will be used for construction of this restoration project under the jurisdiction of several agencies, including the City of Seal Beach, California Coastal Commission, State Lands Commission, State Water Board, California Department of Fish and Wildlife, and US Army Corps of Engineers.

The major deliverables are to produce final engineering construction documents containing enough detail for construction of the entire Project Area. The plans will include:

- 1) restoration of tidal marsh, as well as transition zones and coastal upland habitat to allow for upslope wetland migration in response to sea level rise,
- 2) creation of public access trails and facilities,
- 3) relocation or redesign of existing utilities and roadways,

- 4) a grading plan covering the remediation of contaminated soils and details regarding the beneficial reuse of cut material, and
- 5) improved hydrological connections and flood management facilities.

It is expected that prior to the completion of final construction designs, intermediate iterations of designs will be developed for review by the LCWA, technical advisors, and critical stakeholders. The selected Consultant will be expected to work closely with the LCWA Project Team to complete all project tasks that are detailed in the following section.

### **III. SCOPE OF WORK:**

The following **key team members** must be clearly identified in the proposal and serve these roles:

- 1) Design Team Project Manager (“PM”) shall have a minimum of ten (10) years of demonstrated experience designing Southern California salt marsh habitat restoration projects. PM must be able to dedicate a minimum of 10% of their time to managing this project in close coordination with the LCWA Project Team. This team member should anticipate involvement in most tasks.
- 2) Design Team Engineer shall be a Licensed Professional Civil Engineer (“CE”) in the State of California and must possess a minimum of ten (10) years of experience designing Southern California salt marsh habitat restoration projects. Specifically, the CE must demonstrate experience with interpreting the results of hydrodynamic modeling.
- 3) Design Team Landscape Architect shall be a Licensed Professional Landscape Architect (“LA”) in the State of California and must possess a minimum of ten (10) years of experience in designing restored intertidal habitats and other native plant community landscapes in southern California.
- 4) Designated Cultural Resource Specialist (“CRS”) shall hold a minimum of a bachelor’s degree in archeology, anthropology, or a closely related field and must possess a minimum of ten (10) years of experience. Previous experience working with the tribal communities from the Los Angeles Basin and Orange County regions is preferred.
- 5) Permitting Specialist (“PS”) must possess a minimum of five (5) years of experience managing permitting processes and environmental compliance for coastal habitat restoration projects in Southern California. Experience with Coastal Development Permitting is preferred.

**Task 1 - Final Engineering Construction Design and Permitting:** This task includes 90% construction drawings and specifications, 100% construction drawings and specifications, Final Construction Documents for advertisement, and the finalization of all project related permits. This task should be completed over a 12-18 month performance period. A successful proposal will identify the multidisciplinary expertise necessary to complete this design effort and a proposed timeline for major milestones. Proposals may include technical advisors as deemed necessary to complete the final design documents. Proposals should include the prospective Consulting

Team's approach to the following subtasks and identify the Key Team Members assigned to managing these subtasks:

#### Subtask 1.1 – 90% Construction Drawings and Specifications

This iteration of design should elevate the 65% design drawings to a level where all sheets are complete and all necessary drawing details are shown. All sections of design specifications must be complete and void of any placeholders. This work is likely to require additional technical analysis (modeling, surveys, field investigations, etc.) which should be included in the proposal.

Specifically, the construction drawings must include:

- All infrastructure improvements including but not limited to utilities, water conveyance features, roadways, and fences/gates.
- All landscaping improvements detailing the planting plan, irrigation design, plant schedule, soil amendment plan, trails, tribal access features, and other interpretive elements.
- All earthwork elements detailing new channels, flood protection features, and cut and/or fill required to effectively treat known contaminated areas.
- All site elements required by the Program EIR, IS/MND, and/or permit conditions.

Additionally, the 90% design document package must include the following:

- Renderings of the 90% site plan as well as photo-simulations from various viewpoints throughout the site should be produced in coordination with the LCWA's public engagement team.
- High resolution graphics providing a plan view that indicates the locations of restored habitat types and public access areas should be produced in coordination with the LCWA's public engagement team.
- 90% cost estimate developed by a 3<sup>rd</sup> party cost estimator.
- 90% basis of design report

#### Subtask 1.2 – Tribal Access Plan

The Consultant shall develop a written tribal access plan to preserve and enhance tribal members' access to, and use of, the restoration project area for religious, spiritual, or other cultural purposes. This access plan shall be developed in coordination with participating California Native American Tribes, to the extent that they wish to participate. Tribal access features that will be developed in this Project should be included in Construction Drawings and Specifications.

#### Subtask 1.3 - 100% Construction Drawings and Specifications

This iteration of design should revise all elements of the 90% construction drawings and specifications in response to review by the LCWA, permitting agencies, and stakeholders described in Task 2. Revisions to the designs, or value engineering, may also be conducted during this iteration in order for the project's estimated cost to conform with the available funding for implementation. The 100% documents must be completed to a level that they can be used for the construction bid process. All renderings, graphics, descriptions, 3<sup>rd</sup> party cost estimates, reports and other associated documents must be updated to be consistent with the 100% Construction Drawings and Specifications.

#### Subtask 1.4 – Final Construction Documents for Advertisement

The Consultant Team shall compile the 100% design documents into a bid package that is finalized and prepared to be advertised to potential bidders.

### Subtask 1.5 – Acquire Final Project Permits

The Consultant Team is responsible for acquiring all project related permits, approvals, and/or agreements necessary to implement the entire project regardless of phase. This may require meetings with agencies and attendance at permit hearings. These permits include but are not limited to:

- Any required permits from the South Coast Air Quality Management District, Caltrans, or Department of Toxic Substances Control;
- Any required permits from Orange County Public Works; and
- Any required permits from the City of Seal Beach.

*NOTE: \* indicates that this permit application has already been prepared/submitted and is in the process of being negotiated and approved under an existing Consultant Services Agreement.*

The Consultant should clearly identify any permit application fees anticipated for this project for permits not already in progress and include those amounts in this proposal's cost estimate. The Consultant's proposal should include a list of additional permits, approvals, or agreements that they believe will be necessary for this project.

### Subtask 1.6 – Design Team Weekly Meetings

On the effective date of termination, Consultant shall deliver to the LCWA all Data developed or accumulated in the performance of this Agreement, whether in draft or final form, or in process. And, Consultant acknowledges and agrees that the LCWA's obligation to make final payment is conditioned on Consultant's delivery of the Data to the LCWA.

c. LCWA may also, by written notice to Consultant, immediately terminate the right of Consultant to proceed under this Agreement if it is found that consideration, in any form, was offered or given by Consultant, either directly or through an intermediary, to any LCWA Executive Officer, employee, or agent with the intent of securing the Agreement or securing favorable treatment with respect to the award, amendment, or extension of the Agreement or the making of any determinations with respect to Consultants' performance pursuant to the Agreement. In the event of such termination, LCWA shall be entitled to pursue the same remedies against Consultant as it could pursue in the event of default by Consultant.

#### 11. Confidentiality

Consultant shall keep the Data confidential and shall not disclose the Data or use the Data directly or indirectly other than in the course of services provided hereunder during the term of this Agreement and for five (5) years following expiration or termination of this Agreement. In addition, Consultant shall keep confidential all information, whether written, oral, or visual, obtained by any means whatsoever in the course of Consultant's performance hereunder for the same period of time. Consultant shall not disclose any or all of the Data to any third party, nor use it for Consultant's own benefit or the benefit of others except for the purpose of this Agreement.

#### 12. Breach of Confidentiality

Consultant shall not be liable for a breach of confidentiality with respect to Data that: (a) Consultant demonstrates Consultant knew prior to the time the LCWA disclosed it; or (b) Is or becomes publicly available without breach of this Agreement by Consultant; or (c) a third party who has a right to disclose does so to Consultant without restrictions on further disclosure; or (d) must be disclosed pursuant to subpoena or court order.

Furthermore, Consultant shall not subcontract any portion of its performance without the prior approval of the LCWA Executive Officer or designee, or substitute an approved sub-consultant or contractor without approval prior to the substitution. Nothing stated in this Section shall prevent Consultant from employing as many employees as Consultant deems necessary for performance of this Agreement.

#### 14. Conflict of Interest

a. Consultant, by executing this Agreement, certifies that, at the time Consultant executes this Agreement and for its duration, Consultant does not and will not perform services for any other client which would create a conflict, whether monetary or otherwise, as between the interests of the LCWA and the interests of that other client. And, Consultant shall obtain similar certifications from Consultant's employees, sub-consultants and contractors.

b. No LCWA employee in a position to influence the award of this Agreement or any competing agreement, and no spouse or economic dependent of such employee, shall be employed in any capacity by Consultant herein, or have any other direct or indirect financial interest in this Agreement.

#### 15. Gratuities

a. It is improper for any LCWA Executive Officer, employee, or agent to solicit consideration, in any form, from Consultant with the implication, suggestion, or statement that Consultant's provision of the consideration may secure more favorable treatment for Consultant in the award of the contract or that Consultants' failure to provide such consideration may negatively affect LCWA's consideration of Consultant's submittal. Consultant shall not offer or give, either directly or through an intermediary, consideration, in any form, to a LCWA Executive Officer, employee, or agent for the purpose of securing favorable treatment with respect to the award of the contract.

b. Consultant shall immediately report any attempt by a LCWA Executive Officer, employee, or agent to solicit such improper consideration. The report shall be made to Executive Officer. Among other items, such improper consideration may take the form of cash, discounts, services, the provision of travel or entertainment, or tangible gifts.

16. Additional Costs and Redesign

Any costs incurred by the LCWA due to Consultant's failure to meet the standards required by the scope of work or Consultant's failure to perform fully the tasks described in the scope of work which, in either case, causes the LCWA to request that Consultant perform again all or part of the Scope of Work shall be at the sole cost of Consultant and the LCWA shall not pay any additional compensation to Consultant for its re- performance.

17 Law

This Agreement shall be governed by and construed pursuant to the laws of the State of California (except those provisions of California law pertaining to conflicts of laws). Consultant shall comply with all laws, ordinances, rules and regulations of and obtain all permits, licenses and certificates required by all federal, state and local governmental authorities.

18. Entire Agreement

For damages, claims, liabilities, costs, suits, or expenses arising from Consultant's lawful activities on behalf of the LCWA under this Agreement, LCWA agrees to indemnify and hold harmless Consultant against any and all damages, claims, liabilities, costs, suits, or expenses for which LCWA would be liable if Consultant were an employee.

Consultant agrees to indemnify, defend, and hold harmless LCWA, RMC, and the Cities of Long Beach and Seal Beach, agents, and employees from and against any and all liability, expense, including reasonable defense costs and legal fees, and claims for damages of any nature whatsoever, including, but not limited to, bodily injury, death, personal injury, or property damage arising from, or connected with, Consultant's negligent, willful, or unlawful actions, operations, or services hereunder including any Workers' Compensation suits, liability, or expense arising from, or connected with, services pursuant to this Agreement.

20. Liability and Insurance

a. As a condition precedent to the effectiveness of this Agreement, Consultant shall procure and maintain, at Consultant's expense for the duration of this Agreement, from insurance companies that are admitted to write insurance in California and have ratings of or equivalent to A:V by A.M. Best Company or from authorized non-admitted insurance companies subject to Section 1763 of the California

Insurance Code and that have ratings of or equivalent to A:VIII by A.M. Best Company, the following insurance: (a) Commercial general liability insurance (equivalent in scope to ISO form CG 00 01 11 85 or CG 00 01 10 93) in an amount not less than \$2,000,000 per each occurrence and \$2,000,000 general aggregate. This policy shall be endorsed to state that the insurer waives its right of subrogation against the LCWA, its boards and their officials, employees and agents. (c) Professional liability or errors and omissions insurance in an amount not less than \$1,000,000 per claim. (d) Commercial automobile liability insurance (equivalent in scope to ISO form CA 00 01 06 92), covering Auto Symbol 1 (Any Auto) in an amount not less than \$1,000,000 combined single limit per accident.

While LCWA reserves the right to determine individually that the anti-discrimination provision of the contracts have been violated, in addition, a determination by the California Fair Employment Practices Commission or the Federal Equal Employment Opportunity Commission that Consultant has violated state or federal anti-discrimination laws shall constitute a finding by LCWA that Consultant has violated the anti-discrimination provisions of the contract.

c. At its option, and in lieu of canceling, terminating, or suspending the contract, LCWA may impose damages for any violation of the anti-discrimination provisions of this paragraph, in the amount of Two Hundred Dollars (\$200) for each violation found and determined. LCWA and Consultant specifically agree that the aforesaid amount shall be imposed as liquidated damages, and not as a forfeiture or penalty. It is further specifically agreed that the aforesaid amount is presumed to be the amount of damages sustained by reason of any such violation, because from the circumstances and the nature of the violation, it is impracticable and extremely difficult to fix actual damages.

#### 24. Fair Labor Standards Act

Consultant shall comply with all applicable provisions of the Federal Fair Labor Standards Act, and shall indemnify, defend, and hold harmless LCWA, its agents, Executive Officers and employees from any and all liability including, but not limited to, wages, overtime pay, liquidated damages, penalties, court costs, and attorneys' fees arising under any wage and hour law including, but not limited to, the Federal Fair Labor Standards Act for services performed by Consultant's employees for which LCWA may be found jointly or solely liable.

Consultant deficiencies which LCWA determines are severe or continuing, and that may place performance of the Agreement in jeopardy if not corrected, will be reported to the LCWA Board. The report will include improvement/corrective action measures taken by LCWA and Consultant. If improvement does not occur consistent with the corrective action measures, LCWA may terminate this Agreement or impose other penalties as specified in this Agreement.

Consultant shall be solely responsible for payment of all federal and state taxes resulting from payments under this Agreement.
